MIDSOUTH PEST MANAGEMENT GUIDES FOR 2024

Each year, the Midsouth States' land grant universities publish guides for control of diseases, insects, and weeds that plague major crops grown in the region. These guides are compiled to assist producers and other decision makers in choosing management strategies and inputs that are available to control these pests.

The recommended practices and products for controlling specific crop pests in the Midsouth are provided by Arkansas, Louisiana, Mississippi, and Tennessee, and can be accessed through the following links. Recommendations for control of **soybean pests** in each state are imbedded in each of the below guides.

2024 Mississippi Weed Control Guide (P3171)

2024 Mississippi Insect Control Guide (P2471)

2024 Arkansas Weed Control Guide (MP44)

2024 Arkansas Plant Disease Control Guide (MP154)

2024 Arkansas Insect Control Guide (MP144)

LSU Pest Management Guides

2024 Tennessee Weed Control Guide (PB 1580)

2024 Tennessee Insect Control Guide (PB 1768)

Tennessee Soybean Disease and Insect Control Website

Insect Identification Guide–MSU-Ext. Serv. P2543
